'The Circle of Life'
The many life cycles and
cyclical influences in our
life!

In this unit students will be:

- Identifying, and comparing, the many life cycles in nature, animal life, and our own lives.
- Discussing in detail the 'circle of life' in plant and animal life.
- Identifying how the 'circle of life' and planets affect our world.
- Visiting a recycling plant to view the many examples of what we have learnt.
- Viewing the Lion King movie, and discussing its message about the 'circle of life'.
- Creating a visual display on one life cycle the students have learnt about.
- Reading relevant fiction and non-fiction stories and
- Participating in art and craft activities to share with all parents and friends.
