

English

Examining imaginative texts and different perspectives

Students will read and view *The Lorax* and write a retell from the perspective of a different character. They will also explore traditional stories and create their own narrative about a character who overcomes fear. They will also draw images and use software to make a multimodal story.

Dance Fever

Students will participate in Dance Fever and explore a range of movements and dance sequences.

Physical Science

Hot Stuff

Students will investigate how heat energy is produced and the behaviour of heat when it transfers from one object or area to another.

Term Three

2/3 J

Mrs Vicki Johns

Maths

Year 2 and 3 will be using their mathematical understandings to explore the following concepts: Number and Place Value, Fractions and Decimals, Financial Mathematics, Patterns and Algebra, Measurement and Multiplication.

Design Technologies

What's for lunch?

Students investigate food and fibre production and food technologies used in modern and traditional societies. They will design and make a lunch item that includes modern and traditional technologies.

HASS

Our Unique Communities

Students will examine how and why individuals and groups commemorate ANZAC Day. They will investigate an inquiry question and use research skills to collect information about events and aspects of the past.
