

# Year 3 Term 3 Overview

## Science

Students will investigate how heat energy is produced and the behaviour of heat when it transfers from one object or area to another.

## English

This term students will study a range of literary texts. They will create, rehearse and present a spoken retelling from a different perspective. They will explore a variety of stories from other cultures and create their own multimodal imaginative text.

## HASS

In this unit students will investigate how technology has changed over time. They will explore the inquiry question:  
How and why are places similar or different?

Teachers: Mrs Pretorius and Mrs Cook

## Mathematics

Students will apply a variety of mathematical concepts in real life and purely mathematical situations:

They will develop understandings of:

- Number and Place value
- Time and Measurement
- Patterns and Algebra
- Location and Transformation
- Money and Financial Matters
- Fractions and Decimals

## Physical Education

Students will refine large ball skills. They will participate in and investigate physical activities from other cultures, modifying and creating games.

## Digital Technologies

Students will explore and create a digital solution using a visual programming language.

## The Arts

In the area of Dance students will create movement sequences by using actions and changes in pattern, level, direction and shape. In Music students will make and respond to music, exploring songs of Aboriginal peoples and Torres Strait Islander peoples, and songs since the arrival of the First Fleet in Australia.
