

PREP LEARNING OVERVIEW TERM 2

MUSIC

Students will explore rhymes and songs as stimulus for music making and responding.

English Enjoying and Retelling Stories

Students will listen to and respond to a range of traditional tales, exploring language and images used by authors to entertain audiences. Students will create and present retells using images and beginning writing behaviours.

MEDIA ARTS

Students will explore characters and events in media artworks that are inspired by a family story.

HASS

Students will continue to learn about families, how families celebrate and commemorate significant events.

Maths

Students will learn counting sequences, compare quantities and connect number names, numerals and collections.

Students explore 2D shapes and sort them into groups.

Science - Our Material World

Students will explore materials and their observable properties of everyday objects. They will use their knowledge of science to choose appropriate materials to make a wind ornament.

PE

Students will develop the fundamental movement skills of underarm throwing, chest passing and catching large, soft balls. Students will also develop running fitness while practising for the junior cross country carnival and discuss how to be active in and around the home.
