Interviews

English

Students will create, present and respond to a range of poems. They will explore a range of rhyming stories, and create their own rhyming story using familiar rhyming pairs.

Maths

Students will learn about equal quantities, adding and subtracting, duration of time and data. They will collect and interpret data and sequence events.

Science

Students will observe the weather and explore how weather helps them to make decisions such as planning activities, making clothing choices and what places to visit.

Design and Technologies

Students will explore how plants and animals are grown for food, clothing and shelter, and how food is selected and prepared for healthy eating.

HASS

Students will explore the following inquiry question:
What are places like and what makes them special?

Visual Arts

Students will create new stories in artworks by collaging characters, objects and landscapes from different artworks.

HPE

Students will learn ball skills by dribbling with their hands and manipulating balls with objects
