**3H and 3N Term 1 2014**

**Maths**
This term students will apply a variety of mathematical concepts in real-life and mathematical situations. Students will investigate numbers to 1000 and count in 2's, 5's, 10's and 3's. They will also be learning how to tell time to five minute intervals and practise addition and subtraction facts.

**English**
This term students are learning about persuasive texts. Students will read, analyse and write persuasive texts. They will also explore how characters are constructed in texts.

**Science**
Is it living, non-living or once living? This is what students will be asking in science this term when we will be focusing on the Biological Sciences. They will learn to categorise items from their environment and understand how to decide if something is living or not.

**History**
*Celebrations and Commemorations*
Students will be investigating a number of celebrations and commemorations to determine their historical significance and how the event has changed over time.

**Technology**
In this unit students will develop little green thumbs as they design a process to help a plant thrive.

**The Arts**
This term students will be experimenting with line, colour and texture to create some amazing art work.
