English
Examining literary texts (fantasy novel)
In this unit, students listen to, read and interpret a novel from the fantasy genre showing understanding of character development in relation to plot and setting. They demonstrate the ability to analyse the development of a main character through a written response.

Technology
Using the investigate, design, make and evaluate process, students will complete a design challenge.

History
Exploring the development of British colonies in Australia.

Science
Survival in the Australian environment
In this unit students will examine the structural features and behavioural adaptations that assist living things to survive in their environment.

Mathematics
Through the proficiency strands Understanding, Fluency, Problem solving and Reasoning, students have opportunities to develop understandings of:
- Number and place value
- Chance
- Fractions and decimals
- Data representation

Geography
Exploring how people and places affect one another.
The following concepts for geographical understandings will be covered: place, space, environment, interconnections, change, sustainability, and scale.

Visual Arts
Students use colour, line, balance and texture to create a series of realistic and imagined animal representations.

Health
Students will investigate the impact that different types of medicines have on their bodies.
