English—Examining media texts
In this unit, students listen to, read, view and interpret a range of news articles and reports from journals and newspapers to respond to viewpoints portrayed in media texts.
Students apply comprehension strategies, focusing on particular viewpoints portrayed in a range of media texts. They create a digital multimodal feature article, including written and visual elements, from a particular viewpoint.

History - Early Australia
Students will continue their research into Early Australia, including study of life for convicts, Indigenous people, migrants and free settlers. They will produce a poster to encourage free settlers to choose Australia as a destination.
Students will also write an account from the perspective of an Early Australian.

Science—Spinning In Space
Students will investigate the world around them, engage in discourses about science, be sceptical and questioning of scientific matters and understand the position of Earth in our Solar System.

MATHEMATICS
In this unit students will apply a variety of mathematical concepts in real-life, life-like and purely mathematical situations.
students will have opportunities to develop understandings of: Number and Place Value, Fractions, Locations and Transformations, Shape.

Health
Students will explore the Multiple Intelligences. They will participate in activities including juggling, tumbling, writing, and creating mimes. They will focus on non-verbal aspects of communication and participate in drama role play situations.
