**Term 2, 4M**

**English**
Students will be studying Traditional Asian Stories in English. Students will investigate how language features, images and vocabulary are used to portray different messages within traditional stories to add impact and make it interesting to the reader.

**History**
In this unit students will continue to investigate the following questions:
- Why did the great journeys of exploration occur?
- Why did the Europeans settle in Australia?

**Science**
Students will have opportunities to explore how life cycles work and investigate what plants and animals need to survive in different environments.

**Maths**
- Number and Place Value
- Fractions and Decimals
- Shape

**Health**
Students will continue to investigate the different types of health including social, emotional, physical and cognitive health and recognise factors that influence these.

**Geography**
In this unit, students continue to build on their mental map of the world and their understanding of place. Students will learn to identify and describe the relative location of places at a national scale and to complete maps using cartographic conventions. Students will interpret geographical information and data to identify different views on how the environments should be protected, and form conclusions.

**Dee Mathiesen**

**Art**
Students will participate in a variety of textile activities including loom weaving, basket weaving, running stitching and blanket stitching.

**Health**

- Students will...
