In Term 4 English units are based on exploring narrative texts and exploring plot and characterisation in stories.

The students will:

- Read, view and listen to a range of different stories
- Analyse text structures
- Explore how stories use plot and characterisation to entertain and engage an audience
- Write an imaginative event to add to a familiar narrative

**MATHS:** Students will be working on units in the Australian Curriculum, including Number, Operations, Time, Shape, Location and early Multiplication and Division.

**HPE : Safety**

The children will discuss safe practices at home, on the roads, near water and in the sun.

**GEOGRAPHY:**

The students will investigate how people are connected to their place and other places. In this unit they will explore the factors that affect these connections.

**Science: ‘Saving Planet Earth’**

Students will:

- Investigate Earth’s resources and how resources are used
- Reflect on the importance of conserving resources for the future of all living things

**The Arts : Media & Technology**

The students will apply beginning computer skills and use digital technology to write a story using the ‘Create A Superstory’ programme.
