English
Students will be studying the narrative "The Twits" in English this term. Students will investigate how language features, images and vocabulary choices are used for different effects within a story to make it interesting to the reader.

Mathematics
In this unit students apply a variety of mathematical concepts in real-life, like life and purely mathematical situations.

Visual Art
Students use colour, line, balance and texture to create a series of 2D and 3D art works.

Science
In this unit students explore the effect of human activity and extreme weather that causes weathering and erosion of the earth's surface. Students relate this to their local area and predict consequences of future occurrences and human activity.

History
In this unit students will investigate the following questions:
- Why did the great journeys of exploration occur?
- Why did the Europeans settle in Australia?

Health
Students will learn about the different dimensions of health and what it means to be healthy. They will learn that health can be influenced by individuals and the environment.
