English

In this unit, students identify and analyse the literary devices of humour used in poetry by different authors. They create a humorous poem and present it to a familiar audience in an informal context.

Science

What’s the matter?

Students will understand how a change of state between solid and liquid can be caused by adding or removing heat. They will explore the properties of liquids and solids and understand how to identify an object as a solid or liquid.

Media

In this unit, students will explore representations of people, settings, ideas and story structure in advertising and persuasive presentations, focusing on moving pictures.

Mathematics

Students will explore a variety of mathematical concepts: Location and transformation, Money, Elapsed time, Angles, Shape, Number and place value, Fractions and Decimals.

Geography

‘Protecting Places Near and Far’

In this unit, students will investigate the inquiry questions identified from the Australian Curriculum: Geography:

How do people’s feelings about places influence their views about the protection of places?

How and why are places similar and different?
