English

Examing Persuasive Techniques in Advertising

In this unit, students listen to, read and view a range of persuasive product advertisements from different times. Students will show understanding of these persuasive texts through written and spoken responses.

Science

Fast Forces

In this unit, students have the opportunity to explore forces and motion. Through hands-on activities students identify forces that act at a distance and those that act in direct contact and investigate how different-sized forces affect the movement of objects.

Mathematics

Through the proficiency strands - Understanding, Fluency, Problem solving and Reasoning students have opportunities to develop understandings of:

- Fractions and decimals
- Chance and Data
- Patterns and algebra
- Number and place value
- Money and financial mathematics
- Shape and measurement

ART

Students will use various art techniques to create 2D and 3D portraits including drawing their own self-portrait as well as the portrait of another person. Students will create a 3D relief of a portrait they have created.

History

First contacts - Investigating the impact of colonisation

In this unit students will investigate the following question:

- What was life like for Aboriginal peoples and Torres Strait Islander peoples before the arrival of Europeans?
