Our school initiatives are on track to meet or exceed our targets

During 2016, we focused on maximising the benefits of this funding for our students. After reviewing our 2016 *Investing for Success* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our initiatives to ensure that every student succeeds.

Initiatives implemented include:

- Extensive Teacher Aide Support in the Prep-3 classrooms to complement the school's Explicit Improvement Agenda in improving performance outcomes in literacy and numeracy
- Continued implementation of the Response to Intervention and Instruction program with targeted and extensive teacher aide support in classrooms
- Advancing the Digital Literacies agenda by creating a Maker Space laboratory incorporating Robotics and Lego based activities
- The provision of coaching, effective feedback, resource support and professional development opportunities including access to external consultants and advisory teachers
