Snapshot report

Under the agreement for 2014
DAYBORO STATE SCHOOL received $88,462

Our full 2014 agreement can be found here or visit the Forms and Documents section of our webpage.

Our school strategies are showing substantial progress toward our targets

After reviewing our Great Results Guarantee agreement, it is clear that we have made progress toward our targeted student outcomes. We will continue to focus on maximising the benefits of this funding for our students, and adjust our strategies as needed to ensure every student succeeds.

Strategies implemented include:

- Implementation of whole school data collection processes, including systematic review practices which directly aligned to the improvement of student learning outcomes (Sharratt and Fullan 2012)

- Implementation of Term by Term data review meetings with teachers, specifically to target and review intervention and extension priorities for individual students (Ward and Fisher, 2013)

- Introduction and implementation of the Response to Intervention as a whole school approach to identifying and delivering targeted learning support to students (Fisher and Frey 2010, Buffum 2011)

- Improvement of teacher pedagogical practice through the provision of coaching, effective feedback, resource support and professional development opportunities and supported through the North Coast Region ‘Success School’ program. (Elmore and City, 2010)

- Implementation of a structured review of all reading resource material and the acquisition of new materials more adequately aligned to the instructional levels of all students.
